Dear Bro Cybi Ministry Area Member,

At our Ministry Area Council (MAC) Meeting held on 26 July 2021, the Pandemic and the consequences for our Ministry Area were discussed. It was felt that we should learn the lessons of what we have been through, both good and bad. Accordingly, I have been asked by the MAC to consult everyone (Clergy and Laity) in the Ministry Area and consolidate everyone's comments into a Report that will then in the first instance be considered at our next MAC on 13 September 2021.

I should therefore be grateful if everyone would forward their comments to me either to my house address, by email or by phone as above. Importantly, when the Report is produced, it will not give any names against comments; such information will not be shared by me with anyone else. Wherever possible, please give examples of either good or bad practice. In the case of bad practice, please suggest what you would have wished to have seen done. The objective of the Report is to enable our Ministry Area to improve.

To enable me to produce the Report in readiness for the next MAC, I should be grateful for your comments **by Friday 27 August 2021**. I look forward to hearing from you.

With Every Best Wish

Stewart Hayter
MAC Secretary
